ABOUT CHESS... By LaMoyné Splichal

Greetings fellow chessplayers! I have been away from the game for a while, but I am back and ready to play. I hope many of you can attend more NDCA events during the year.

What follows is a few notes..., hopefully not just taking up space for the newsletter. This is my 2¢ worth, er... my 3¢ worth, yes that's the ticket!

- Two major events are coming up fast for North Dakota chess. Start preparing to attend. The 1987 ND Scholastic chess tournament is set for March 28-29, at the Bismarck Convention Center. This is the state's best chance to continue & carry on, with the game of chess in ND. Last tournament we had 107 students competing for state individual & team titles! Pass the word on the scholastic, and maybe we can top last year's extravaganza. - Of course, the other major event is the state chess championship, the 1987 North Dakota Closed! This is your chance to win the state chess title, or win a class championship. The tournament promises to be bigger than ever, with bigger cash prizes and impressive trophies. It's April 11-12 weekend on your calendar, and reserve room also at the Bismarck Ramada, for a relaxing chess vacation!

- Speaking of the scholastic, there are students who need teachers, just basic chess instruction. Maybe someone in your town would like a chess teacher. All it takes is a volunteer, like you! USCF has materials that can help you set up a program. I recently was asked again to teach (luckyme!) at a local elementary school. Terry Ness (Bismarck), Mike Sailer (Bismarck), Ed Lutgen (Minot), and Brent Askvig (Minot) have also provided programs to schools, as well as school teachers who volunteer.

- Contrary to some rumors, NDCA is not dying. Granted we are surviving on a thin thread..., but it is a strong one. Even though low tournament turnouts abound in the 1980s, I am encouraged by the overall improvement of games by the players involved. As long as there are chess enthusiasts, NDCA will have activities for its members. We always welcome ideas for improving ND chess!

- Dave Rosley recently noted he's now settled in the Chicago area, leaving the state in October. Dave has visited some area chess clubs, competing against those 2000 and over rated giants. He also joined the Chicago Industrial Chess League, with teams playing with area company chess teams. NDCA thanks Dave for his past service to North Dakota chess, good luck in the big city! (Dave Rosley's new address is 2301 Beau Monde Ln, #304 - Lisle Illinois 60532)

- In this issue take a look at the USCF Ratings list. Many chessplayers have obtained their highest ratings in '86. If we had a Rookie of the Year Award, Clifford Berger would've won in 1985, skyrocketing to a 1843 rating. In 1986 Mike Sailer would be a sure thing, with a 1686 rating still climbing.

Complimentary issues of the newsletter are distributed, so we can attract new members to the state chess chapter. At year's end, NDCA has 83 (paid card carrying) members. However, we can double the membership, as there are USCF members who don't subscribe. There are other chessplayers left in the dark about ND Chess News! So now is the time to join NDCA or renew your state chess membership. Thank you.

EDITORIALY SPEAKING

With Christmas just over, and New Year's following shortly, greetings to one and all with hopes that all are having one fine holiday. First I will start with some old business. Somner Sorenson notes that the cross-table for the ND Open had an error in it. In round 4, Dorset lost to Shtkovicz. For that reason, you will note a 2nd printing of the ND Open Cross-Table elsewhere in this issue. Elsewhere, you will note a renewal of a standing challenge by Jerry Triggs to any and all takers. Further old business... You will not find any cross tables for the Dakota Blizzards, in December. They were organized by Jerry Triggs. My condolences to Jerry for the work he put in for nothing. You see, both events fell thru for lack of attendance. Only Jerry and Mike Sailer showed up for the 1st event, and the same two only for the 2nd event. Mike Sailer showed up to direct the 1st event and I was there to take care of the 2nd. With both events being scheduled at the Christmas season, it is understandable why people would have many other things to do. Yet, never-the-less, this is indicative of a growing trend in ND Chess. One pauses to wonder how we can attract new competition when the regulars don't even bother to show up. There are certainly some hardy individuals who never seem to let an organizer down. How about you and all the rest? With a membership steadily over 50 players, why is there only a small cadre of 10 or less that show up

regularly? We see that few show up for half the tournaments or more. Why do the other 70 or so regular members show up for only 1 or 2 events per year, if at all? What is necessary for directors and organizers to do to get people to show up for 4 or 5 events per year. One-day events are not doing the trick. Two-day, 5-round events are not doing the trick. International competition is not doing the trick. Higher prize values or greater prize distribution are not doing the trick. What does it take to break the apathy? Clearly, no individual can be blamed when we are all doing such a wonderful job of teamwork!!! That being the case, it is highly possible that Chess in North Dakota will leave the state. I hope that that does not happen, and towards assuring that my hopes are fulfilled, I am making a New Year's resolution to improve my game through experience by participating in at least 10 events this year. I don't expect others to make such a commitment, but I do hope that all of the members of the NDCA will make the effort to attend at least 5 events in 1987. Of particular importance, please, please, make every effort possible to attend the ND Closed in April, and the ND Open, next October.

New Business.... Dave Rosley has left the state. He moved to Chicago to take a new job. I want to join with others in thanking Dave for the job he has done over the past few years as an organizer, director, NDCA officer, and participant in ND Chess. His smiling countenance and wit will be missed.... Wishes of good luck as well to Dave's successor as President of the NDCA, Ron Schauer of Jamestown. As a past officer, organizer, and director, Ron is experienced and eminently qualified to lead the NDCA thru the thin times that beset the local chess scene.

A special note of congratulations to Terry Ness whose many efforts on the scholastic chess scene are beginning to blossom, especially in Bismarck. As well, a note of appreciation to Mike Sailer who has joined in the effort by helping in the organization of a chess club at Pioneer School, in Bismarck.

Finally, What is being done in regard to the ND Chess Hall of Fame? It would be good if all the members of the NDCA could consider the possibility of adding the name of Somner Sorenson to the list of ND legends. I am not sure if the requirements of the hall permit out-of-state individuals to receive this honor, but if they don't, in Somner's case, I think an exception should be made. Residing just

across the border in Moorhead, MN, Somner has been a long time influence on the ND chess scene. His constant and many efforts over the past 3 or 4 decades have resulted in many tournaments and have given many, myself included, the chance to experience organized chess at its best. Unstinting in giving of himself, he is a paragon of chess that epitomizes the heart and soul of Max Euwe's famous quote, "If your only concern is to win, you will never be great." Somner is great in all the ways that count, and I think he should be recognized for that.

Joseph Gagner,
Editor, NDCA Newsletter

Dear fellow chess players,

1986 had many chess tournaments with small numbers of players. I myself, due to business, played in the fewest tournaments I have played in in many years. It is rare that when going to a chess tournament in N.D. that you don't play someone you have played many times over the past. There is no doubt that N.D. chess needs a shot in the arm. One of the few bright spots is the scholastic. It will prove to be the survival of N.D. chess. Another bright spot is the North Dakota Closed. It is the one time during the year that you want to play fellow N.Dakotans so that we can say just where we stand in N.D. chess. I ask, I expect as many fellow chess players as possible to play in the 1987 closed. I know many of you were like me and didn't play in many tournaments during 1986 and I URGE you to be at the 1987 closed and at the 1987 state meeting. It is the one event during the year that should be taken in. Therefore: "I MAKE A PERSONAL REQUEST TO ALL NORTH DAKOTA CHESS PLAYERS TO ATTEND THE 1987 NORTH DAKOTA CLOSED".

Now that that is out of the way I hope many of you will send me or LaMoyné your ideas on how to make N.D. chess grow. What do we need? What do we need in events and tournaments? How should we improve tournaments and number of NDCA members? If each member does one little thing then a lot of things will get done. If each member gave an NDCA membership as a gift sometime in 1987 we would double our membership. Even if you are not a very active tournament player you still can belong and receive the NDCA newsletter and keep up with the game.

From a lover of chess,

Rm

RONALD R. SCHAUER

1986 POSTAL CHAMPION - CLIFFORD BERGER

Clifford Berger of Dickinson has cinched the 1986 North Dakota Postal Chess Championship, with a score of 5½ out of 6 points. Although 3 games remain to be played in the tournament (LaMoyné has two games with B. Loup, and one in progress w/J. Wetsch), no other player in the four-man round robin event can catch Berger. The new champion scored victories over LaMoyné Splichal (2 wins), John Wetsch (2 wins), and Bill Loup (1 win), and drew his final game with Loup. The complete collection of games of the '86 ND Postal Chess Champ., will be published in a future Newsletter.

Chess Correspondence Comments...

Bill Loup, who now resides in Buffalo SD, recently noted his new postal rating of 1586. Bill's fine efforts by mail got me thinking of the contrasts between postal and OTB.

Over to the right is a postal rating list, of North Dakotans who have played in USCF games. Recently the ratings were converted to a system that "almost" reflects that of over-the-board play.

Here are some off the wall observations. - Rex Kriedeman has an impressive rating; could it be an error, is Rex strong in postal? His otb rating is 1310! - Roger Schultz is restricted to opponents playing by mail, unable to travel to events.

- A small percentage plays postal, yet it is the best way to play chess, at your leisure. - Some players just dabble in postal, others play lots of games, like Case, Askvig, etc., and still find time for tournaments.

Bis. Open Tmt. Report - by LaMoyné Splichal

Hey readers, you noticed the low turnout at the 9th Bismarck Open! What was anticipated to be a big event of the chess season, (adv. as a 5 round swiss) turned into only a handful of players. However, those players came to the event to play chess(!), regardless of the no-shows.

With six players there, we could of abandoned the swiss for an ideal round robin. (1765 was average of players there!) But we did not, regretfully, so Dale Sailer and the tournament field "suffered" with making swiss pairings. On Saturday night, we came upon a major obstacle; no combination of the remaining games could be played at the same time! Luckily Rick Case had a brainstorm of staggering Sunday's games, in order to play everybody. We had a round robin after all, in a swiss round about way!

Case showed he was the better player, in that tough little field over the weekend. He went undefeated (3 wins & 2 draws), collecting \$40, and the championship trophy. Tying for 2nd place, were Jerry Triggs & Mike Sailer, who each collected \$18 at event. - In 1987, we look forward for more players at 10th Bismarck Open!

LETS PLAY CHESS ! ! !

PAWN WARS FINAL

The final battle in the Pawn Wars series took place at the Elk's Lodge, in South Bismarck, on Saturday, Nov. 24, 1986. There is nothing new to report on the class of play, as this battle lived up to all of the standards of past altercations. Jerry Triggs and John Stanfield fought it out on board 1, in what was a surprisingly short confrontation, as Triggs put the finishing touches on his 1st Pawn Wars Commander-in-Chief title with his 4th tourney title in this year's 5 tourney series. All-in-all, Jerry's performance was overpowering. Throughout the series, he scored an overall record of 13 wins, 1 loss, and 1 draw. It is interesting to note that the only spots on his record were both put there by Stanfield, who had a 1/1/1 record against Triggs. John's overall record was 7 wins, 1 loss, and 1 draw. One wonders how tight a race we would have had if Stanfield had been able to make all 5 of the series tourneys.

With only 8 players at the final battle, it was the lightest turnout of the series. Yet never-the-less, the pawn wars was a definite success with an average turnout of 10 1/2 players per event. And the last battle was the only one with less than 10 combatants.

With a total of 23 players competing throughout the length of the series, I am looking forward to next years Pawn Wars, the 3rd year of the new Pawn Wars. Will Jerry Triggs defend his title, or will Rick Case win back the title he won last year, or will a new leader step forth to take upon themselves the mantle of Commander-in-Chief? Stay tuned for the next episode in the continuing saga of Pawn Wars!!!

How Not to Play the Nimzo-Indian

by Brent A. Askvig

The following game was played in the USA vs. Spain correspondence chess match, under the auspices of the ICCF (International Correspondence Chess Federation). My team captain, while notifying me of my opponent, included these words in his letter, "... do not underestimate your opponent." Unfortunately, I did not heed his words closely enough.

A vs. Spain, Board 71 - Juan Gonzalo Rodriguez Alonso - Brent A. Askvig
mzo-Indian Defense. 1 d4 Nf6 2 c4 e6 3 Nc3 Bb4 4 Qc2 (see diagram.
e Classical Variation regarded as a "older" system, it has been extensively analysed.) 4...b6 (Black attempts a Rubenstein-Queen's Indian
tup against White's Nimzo. Although not as aggressive as the normal
ntinuations of ...d5 or ...c5, it does put powerful pressure on the
3-h1 diagonal. Also, it quickly takes White out of the book!) 5 e4 Bb7
Bd3 d5 7 e5 (7 ed5 ed5 8 cd5 probably opens up the game too much for
hite's taste.) 7 ...dc4 (A little risky, but Black wants to keep the
Bishop alive.) 8 Qa4+ Bc6? (Oops. Black is blinded by the enticing
2 square. Better is Nc6, of course.) 9 Qb4 Bg2 (Aha! A rook!!)
Q ef6 cd3 11 fg7 Rg8 12 Bh6! (An important move. It sets up the threat
f Qf8+, decimating Black's K-side while trading a pawn for a rook.)
2 ...Qd6? (Instead, 12...Nd7 with Qf6 to follow.) 13 Qb5+ Nd7 14 Qd3
f6 (or else White jumps on the Black K-side again. The attempt ...0-0-0
s still trouble after 15 Qa6+ and if 15 ...Kb8, then 16 Nb5. 15 ...Bb7
s better for Black here, though.) 15 Bg5 Nd5 16 Nf3 Rg7 (Black can't
ake the white rook yet as Qh7 "hurts real bad.") 17 Ne4 Qb4+ (Maybe
lack has a chance now!?) 18 Bd2 Qb2 (Gobble one.) 19 Rb1 Qa2
Gobble two.) 20 Rg1 (Oh no! Now the rook is gone. The Bishop is
inned. The Queen ate too many pawns and has no comfortable place to
it!! What can Black do, but ... run for the hills!) 20 ...a5 21 Qb5+
e7 22 Bg5+ Rg5 (too bad, but the hills are covered also!) 23 Nfg5 Be4
A last ditch effort.) 24 Ne4 f5 25 Nd2 (But that is covered too.
he try Nc3 is met by 26 Rg7+ Kf6 27 Qe5 mate, or 26 ...Kf8 27 Qd7 with
ate next move.) Black Regains.
